

# Battery enclosure drawing

DEMO - Atlas EV platform

Revision 3 | Page 1 of 2

NOT FOR ENGINEERING, PROCUREMENT OR SAFETY DECISIONS

## Purpose and document scope

Corrected fictional flange clearance from 12 mm to 16 mm.

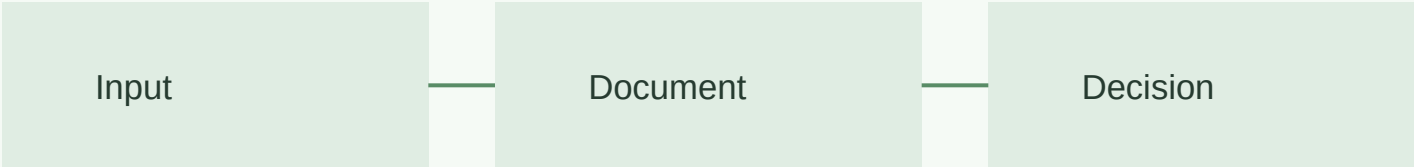

Revision note updated in response to Vikram’s sample review feedback.

Fictional design parameter: clearance 16 mm.

Prepared by Mira Nair for the local demonstration walkthrough.

NOT FOR ENGINEERING, PROCUREMENT OR SAFETY DECISIONS.

## Illustrative assembly / workflow map

Example values are invented to demonstrate the document workflow.

### Revision notes and reader checklist

Current revision: 3. Previous versions remain available in Verdant.

Confirm the document title and selected version before reviewing.

Read the change summary beside the file reader.

Compare versions side by side when an earlier file exists.

Record written feedback before requesting changes.

Submit a new version after making the requested corrections.

Only the assigned reviewer may approve this project document.

An approval in this sample is fictional, not engineering certification.
